# Beyond Equipment

As dementia continues to grow, so does the need for support — both at the organizational level and the caregiver level. By leveraging our global reach and resources, we are turning our focus directly towards dementia care. And we will walk alongside caregivers in exactly the ways they need most.

Our aim encompasses far more than equipment. We are dedicated to making space for the personal touch that is so essential for navigating the complexities of dementia care. And we do so by bringing together our unmatched product portfolio, industry expertise and caregiver support.

## THE ARJO APPROACH

### **BALANCE FOCUSED.**

Arjo Dementia Care Solutions are specifically designed to strike the necessary balance between the physical and psychological needs of residents

### **HUMAN CENTERED.**

These solutions are designed to nurture personalized interactions between caregiver and residents

### **CAREGIVER READY.**

Each solution is backed by the full reach and support of Arjo, which means you gain access to clinical expertise to support you in your dementia care journey

# Forward. With Dignity.

Dementia care is delicate. It's complex. It's filled with countless nuances and frustrations. And at the center is a person. A family. A support team. And they're all in search of next steps that offer support and affirm their needs.

## The Impact of Personal Care

We recognize that dementia care is not fueled by the pursuit of a cure. It's care that is rooted in the fundamental idea that behind each challenge is a person in need of something personal.

With our approach, we strive to lay a foundation of support that creates the freedom needed for a focus on the personal needs of each resident.

## MEDICAL BEDS AND WELLNESS PRODUCTS

### Wellness Nordic Relax Chair

The fully automated Wellness Nordic Relax Chair combines music, tactile stimulation and a gentle rocking motion to offer a unique and calming multi-sensory experience.

### Minuet 2

The Minuet 2 range's Pro-Contour® advanced system with intelligent profiling delivers outstanding pressure, shear and friction reduction, helping to reduce the risk of pressure ulcer development, as well as improving postural support and comfort for the resident.

## Freedom Bath™

In dementia care environments, full long-side access makes both independent and assisted bathing safer and easier.

## Rhapsody® and Primo®

Rhapsody and Primo bathing systems are not only height adjustable, but also highly adaptable. Our bathing systems are designed for flexibility and are compatible with a range of transport and lifting aids that cover all resident mobility levels.

## Parker® Bath

The Parker® bath offers a range of options, such as an air spa and Sound & Vision™, that enable you to create a calm, multi-sensory bathroom environment and the ideal conditions for helping residents of all stages of dementia to relax.

## TRANSFER SOLUTIONS

## Sara Stedy®

Sara Stedy® is a proven mobility-promoting support aid that encourages early stage dementia residents to stand up independently.

## Sara® Flex

Designed to make everyday transfer and care tasks easier, Sara® Flex equips one caregiver with the ability to position a resident from a seated to a safe, secure and comfortable standing position in one ergonomic movement.

At Arjo, we are committed to improving the everyday lives of people affected by reduced mobility and age-related health challenges. With products and solutions that ensure ergonomic patient handling, personal hygiene, disinfection, diagnostics, and the effective prevention of pressure ulcers and venous thromboembolism, we help professionals across care environments to continually raise the standard of safe and dignified care. Everything we do, we do with people in mind. [www.arjo.com](http://www.arjo.com)
